## **DETAILED ACTION**

### ***Specification***

1. The abstract of the disclosure is objected to because the reference numbers are not in parenthesis. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: The status of the parent Application should be updated to read "now U.S. Patent No 6,635,993".

Appropriate correction is required.

### ***Allowable Subject Matter***

2. Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a joined body comprised of, in part, a first member made of a metal, a second member made of a ceramic or a cermet, and a main phase comprising a porous bone structure having open pores, the porous bone structure comprising a sintered product of metal powder, and a glass phase impregnated into the open pores of the porous bone structure, along with the other limitations of the claim.

Due to their dependency, claims 2-17 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2879

***Conclusion***

Please refer to the above Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
